Karralika Programs Pharmacotherapy Support Program Information

Karralika Programs acknowledges that we are on the lands of the traditional custodians, the Ngunnawal people. We pay respect to their Elders and leaders past, present and emerging and we are committed to improving the health and well-being of all Aboriginal and Torres Strait Islander people. We strive to make sure all people from all diverse backgrounds feel welcome and supported in our programs.

Karralika Programs Pharmacotherapy Support Program Information

THE SERVICE

The Pharmacotherapy Support Program assists people who are on Methadone, Suboxone or other replacement therapies to better access residential alcohol and drug treatment.

This Program provides holistic care and support to people receiving a replacement therapy for their substance use issues, their families, support people and other service providers.

The primary aim of this program is to support people to better stabilise on their replacement therapy so they can enter a rehabilitation program or receive support after they have completed a rehabilitation program.

As part of the program, with your permission, we will work with your prescriber, pharmacist, support person(s) and other service providers.

THE SERVICE

The Pharmacotherapy Support Program Nurse will have regular contact with you to assist you to enter a rehabilitation program or transition into the community after completing a rehabilitation program.

The Nurse can provide support in your own home (if safe), or an agreed environment that is safe and easily accessible. For example, a community health centre.

Support can be provided in person, via the telephone or secure web-based contact.

The Nurse can provide information and education to you, your support person(s) and service providers.

ELIGIBILITY

You live in the ACT.

18 years old and over.

You are currently participating in a Methadone, Suboxone or other replacement therapy program and would like some help to access residential or day rehabilitation programs.

You need further support to stabilise your replacement therapy.

You have recently completed a residential rehabilitation program and would like further support in the community.

You are willing to engage in a support program.
