We have many program types available, all providing holistic care by a multi-disciplinary staff team.

Karralika Programs is dedicated to supporting student placements for the development of an appropriately trained and educated alcohol and other drug sector workforce.

We are committed to providing an environment for students that is conducive to learning, values the contribution of the student, and is in line with our strategic objectives and organisational priorities.

We prioritise placement enquiries from individuals with an interest in working in the alcohol and other drug sector in the ACT and region.
